

Over half a million children and young people have taken part in our Creative Maths workshops!

"One of the best STEM Events that I have ever booked. The students found the workshops extremely interesting, engaging and fun. One pupil asked, "Miss, can we do this every Thursday?"

Park Main High School

"It was by far our most popular event during maths week. The students enjoyed the competitiveness of the trading game, it was great for their group and negotiating skills. The delivery and hosting of the activity was superb."

Langholm Academy

In-person & Live Streamed workshops

The Trading Game

A high energy activity that challenges students' understanding of shape, probes concepts of "value" and asks them to cope with the unexpected!

"All who witnessed the level of buzz and atmosphere in the room were simply blown away by the engagement of students, the high energy environment and delighted in watching students find clever and innovative approaches... A superb day was had by all"

Altwood School

The Trading Game

The aim of the game is to earn as many points as you can for your country.

The Trading Game Skills Audit

Accuracy	Number Operations	Responding to Change

Tangrams

10 Bonus Points

- Draw the side view of this shape.

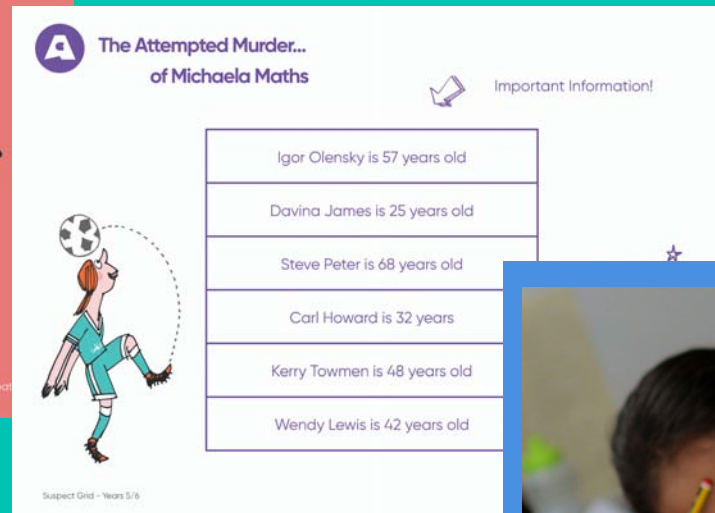

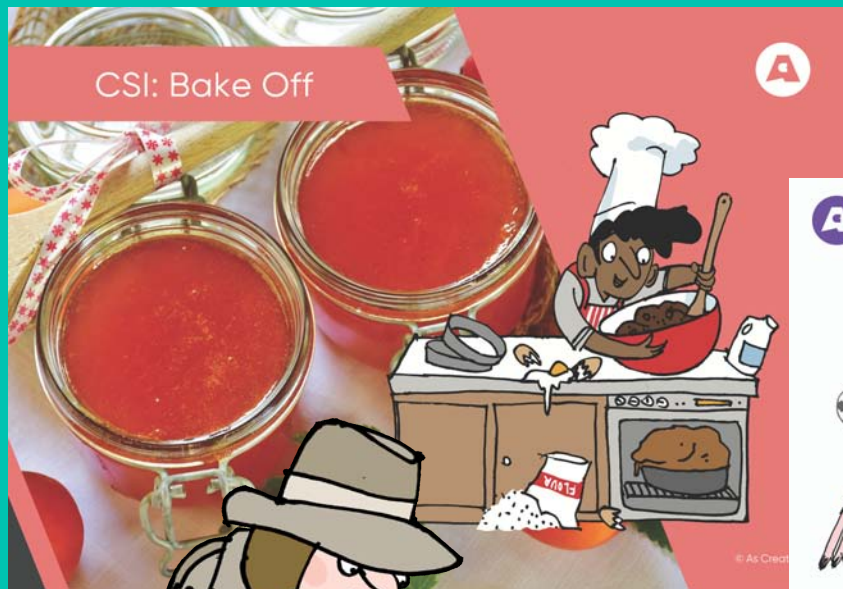

CSI: Maths

A challenging mystery to engage your students and get them thinking logically!

"The maths staff were unanimously of the opinion that this was one of the best maths workshops we have had. Jackson was an excellent presenter... his enthusiasm for maths was infectious and I particularly liked his emphasis on looking at the wider benefits of developing maths skills. i.e. identifying patterns, seeing that maths isn't just numbers, problem-solving."

"The students were constantly challenged and the puzzles drew from a wide range of mathematical areas. Thanks for the hard work, I'll be sure to use As Creatives again in the future!"

Archbishop Beck Sports College

aligned to
the Maths
curriculum

The Bunker

A fast-paced workshop
contextualising sequencing and
making connections between
maths and other subjects

"A huge thank you! Many of the students involved said it was one of their favourite parts of the week. I will be recommending as creatives to colleagues in other departments and schools without a doubt!"

Kingsway School

Enterprise Skills Audit

Relationships

How well did you follow the instructions as you progressed through the Challenge?

Very Poorly	Poorly	Average	Well	Very Well
-------------	--------	---------	------	-----------

Please explain your answer:

Resourcefulness

How well did you maintain accuracy as the Challenge progressed?

Very Poorly	Poorly	Average	Well	Very Well
-------------	--------	---------	------	-----------

Please explain your answer:

Risk Taking

How willing were you to take risks during the Challenge?

Very Unwilling	Unwilling	Quite Willing	Willing	Very Willing
----------------	-----------	---------------	---------	--------------

Please explain your answer:

Resilience

How positively did you respond when things went wrong?

Not At All Positively	Not Particularly Positively	Neutrally	Positively	Very Positively
-----------------------	-----------------------------	-----------	------------	-----------------

Please explain your answer:

Reflection

As the Challenge progressed, how well did you learn from what you'd done before?

Very Poorly	Poorly	Average	Well	Very Well
-------------	--------	---------	------	-----------

Please explain your answer:

The Baker's Rebus

A Rebus is a combination of images, mathematical symbols and letters. By identifying the images and following the mathematical operations, you end up with new words. There are 5 on this sheet - all items used by a baker.
